

Geographical Distribution of Michelin-Starred Restaurants

This map displays the locations of Michelin-starred restaurants across the world. Each circle represents a restaurant, demonstrating the global reach and distribution of these prestigious establishments.

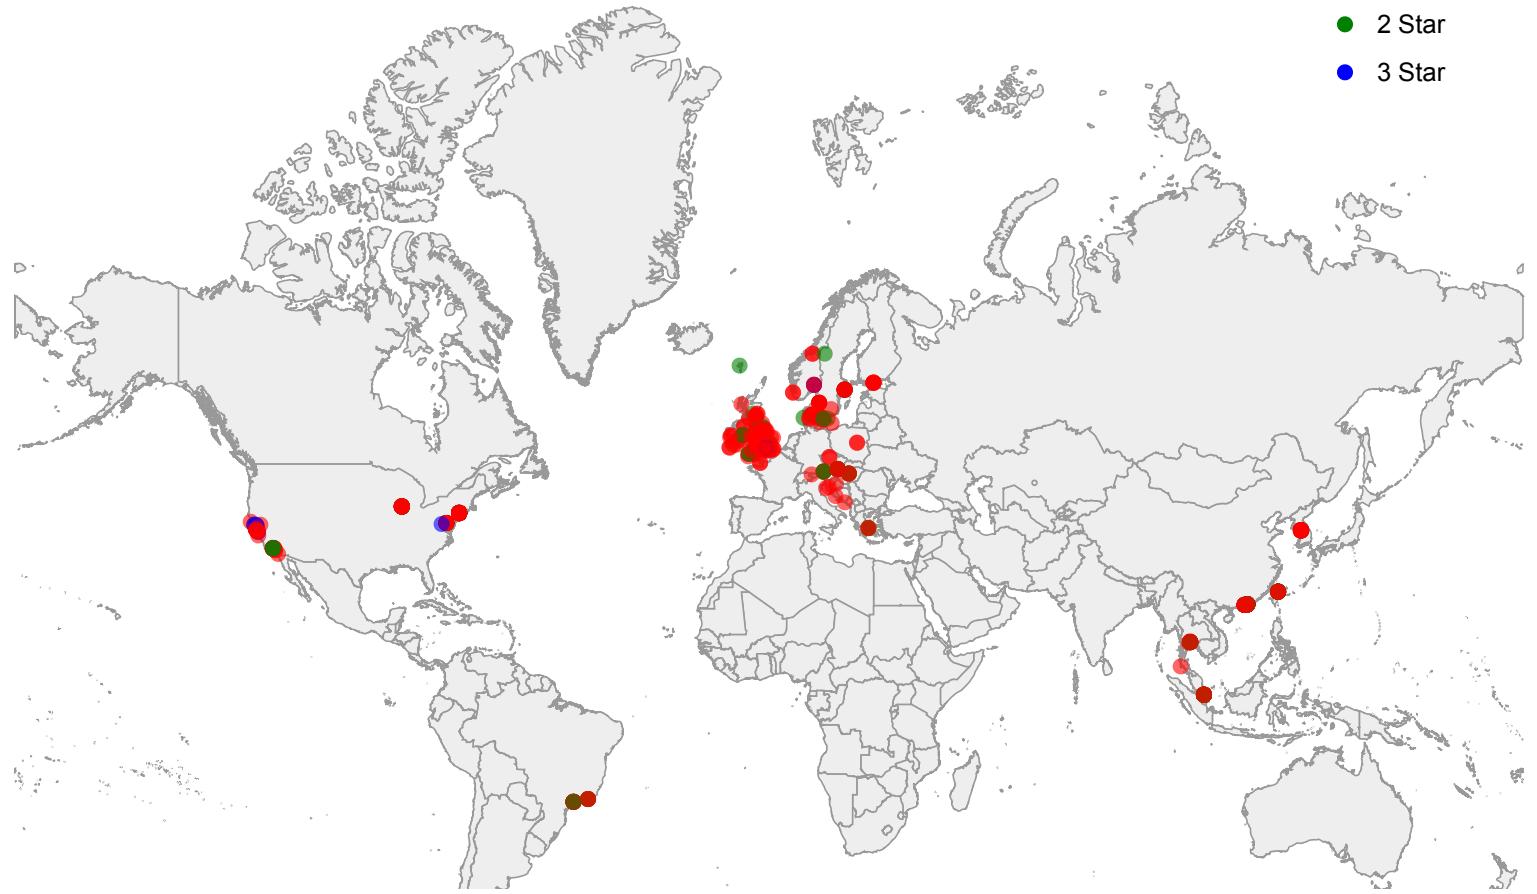

Heatmap of Michelin-Starred Restaurants

This heatmap illustrates the concentration of Michelin-starred restaurants in different regions. Darker shades indicate a higher density of restaurants, highlighting culinary hubs around the world.

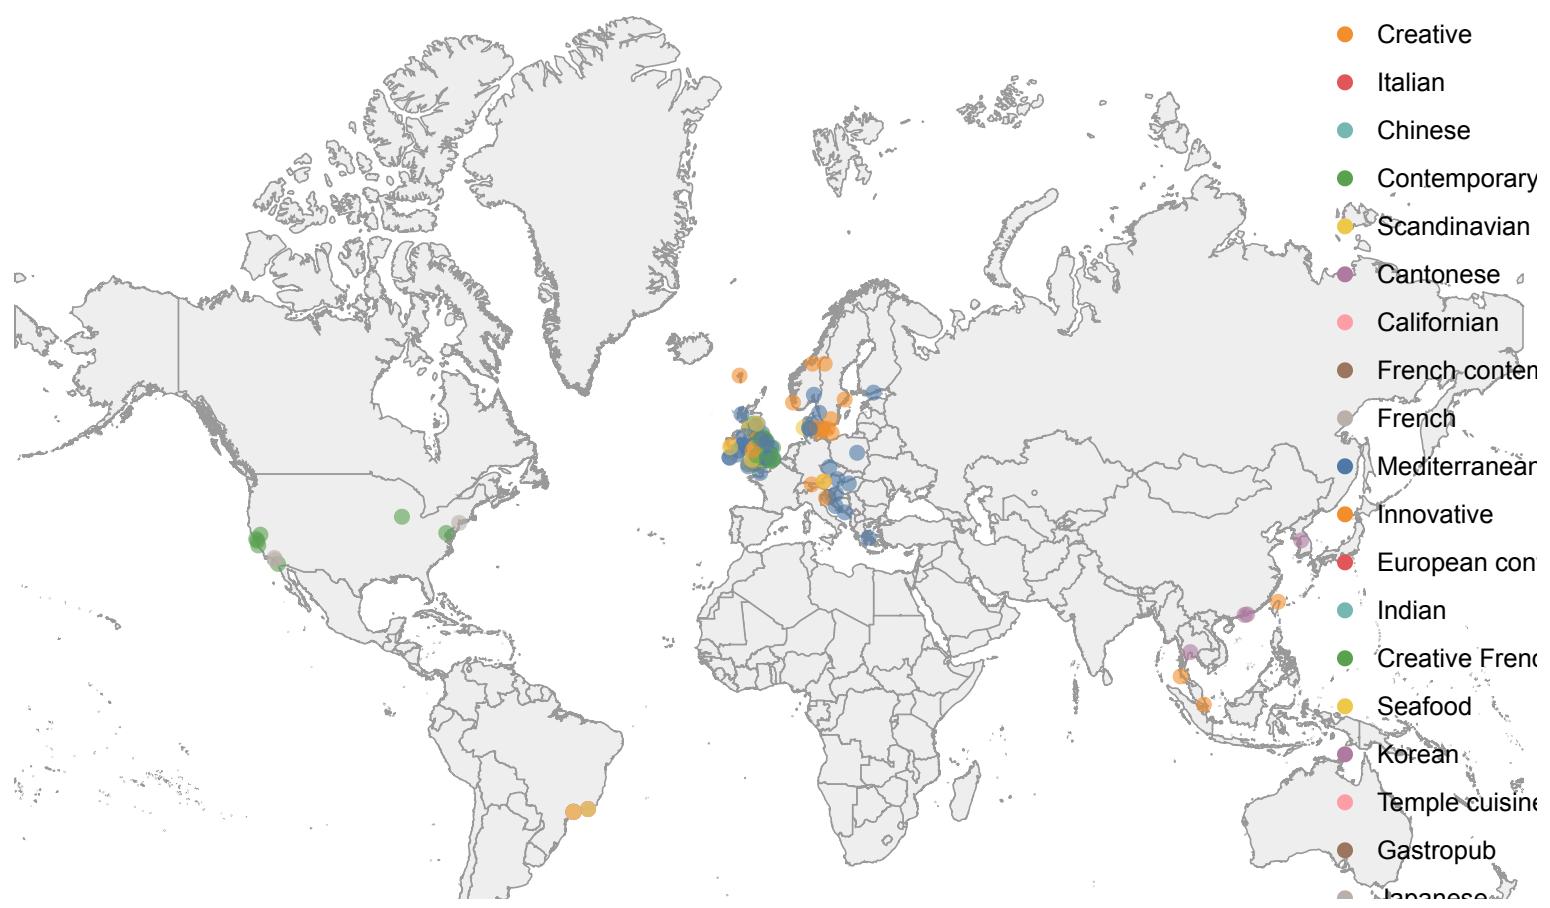

Comparison of Restaurants by Michelin Stars

- 1 Star
- 2 Star
- 3 Star

This map offers a comparative view of Michelin stars against the price range of restaurants. Larger circles represent restaurants with higher prices, while the color intensity denotes the number of Michelin stars, offering insights into the correlation between prestige and price.

Cuisine Popularity in Michelin-Starred Restaurants

This map showcases the most popular cuisines in cities with Michelin-starred restaurants. Each city is colored based on its most prevalent cuisine, offering a gastronomic tour of favored culinary traditions worldwide.
